

# Downtown Collection

*Modern is the new classic!*

By adding a distinctive curve and soft corners, Tournesol Siteworks has created a new classic container, the Downtown Collection. Using tall, elegant proportions typical of the new modern, it adds flair to any project. All round, square and rectangular shapes carry the distinctive proportions, while available shallower round sizes are useful for flower and color displays.

- Lightweight FRP fiberglass and GFRC are designed to be durable despite low weight - even for heavy-traffic locations
- Coordinates with our self-watering container irrigation products
- Metallic FRP finishes will naturally weather over time, like metal containers
- Round, square and rectangular sizes from 18" to 60", with customization available
- Matching ash, trash available

Materials & Finishes - Metal Infused finishes (Aluminum, Bronze, Copper and Iron) combine the light weight and durability of FRP with the natural patina of real metal. The metal will oxidize naturally, depending on the location and condition of the installation. For those that love the look of the metal but want to keep the color the way it starts, we offer a Metal Matched Paint that simulates the color. Our economical standard paint finishes use a high-quality industrial grade acrylic enamel in a variety of architectural colors.
