

Urban Collection

A tall profile and modern shape make this a truly urban planter.

The Urban Collection reflects the contemporary mood of today's discerning client. Sleek, simple, and elegantly proportioned, they work with most modern designs. Lightweight fiberglass or GFRC concrete make it durable enough for today's world.

- Lightweight FRP fiberglass and GFRC are designed to be durable despite low weight - even for heavy-traffic locations
- Coordinates with our self-watering container irrigation products
- Metallic FRP finishes will naturally weather over time, like metal containers
- Round, square and rectangular sizes from 18" to 60", with customization available
- Matching ash, trash and recyclers available

Materials & Finishes - Metal Infused finishes (Aluminum, Bronze, Copper and Iron) combine the light weight and durability of FRP with the natural patina of real metal. The metal will oxidize naturally, depending on the location and condition of the installation. For those that love the look of the metal but want to keep the color the way it starts, we offer a Metal Matched Paint that simulates the color. Our economical standard paint finishes use a high-quality industrial grade acrylic enamel in a variety of architectural colors.

Urban Square
MI Aluminum

Urban Round
MI Copper

Urban Tall Square
MI Bronze
